Any exceptions shall have prior approval of the Department.

Section 6. Responsibility of School Districts.

(a) Districts shall ensure their full compliance with the law or rules regarding timeliness, format, completeness and accuracy on all reports submitted to the Department.

(b) All foundation program reports required to be submitted to the Department by school districts by statute or rule and regulation shall include a statement by the district superintendent certifying that the information submitted is complete, accurate and in conformance with the reporting requirements.

(c) All foundation program reports shall be submitted by the district superintendent to the Department on or before the statutory date or a date determined by the Department. (d) If a district superintendent submits, without good cause, a foundation program report that is tardy, incomplete, inaccurate or in an incorrect format, the State Superintendent of Public Instruction, through Department staff, shall advise the district's board of trustees of the non-compliance with reporting requirements and require the district's board to submit a plan to correct the non-compliance and prevent future instances of non-compliance. The plan shall be submitted to the Department by the district within thirty (30) days of receipt of the request from the Department and shall include the specific steps the district is taking to correct the non-compliance and prevent its reoccurrence.

(b) Applications to modify a school's grade configuration for the upcoming school year shall be received by the Department no later than June 15 of each year.

(c) The application shall provide documentation verifying compliance with the district's facility plan on file with the School Facilities Commission (SFC) and with the criteria outlined in W.S. 21-13-309(m)(iv)(C), including:

- (i) Appropriate delivery of the required educational program;
 - (ii) Cost effectiveness of the modified grade configuration for the delivery of adequate educational services to students; and
 - (iii) Any extra ordinary circumstances related to the safe and efficient delivery of the educational program to students.
- (d) The above criteria will be reviewed by the Department on an individual district basis and a decision will be rendered to the district no later than sixty (60) days following receipt of the request. A determination will be made on a case-by-case basis. In some instances, a reconfigured school or combined school may result in a new school. If a replacement school is built, the school shall not be considered a new school.

Section 9. Minimum Attendance Taking Requirements. All Wyoming public schools shall take and record attendance to verify and to ensure accurate attendance and membership calculations.

(a) In elementary schools, attendance shall be taken a minimum of two (2) times during the school day; once in the morning and once in the afternoon.

(b) In middle schools, junior high schools, and high schools, attendance shall be taken each class period.

(c) Virtual education attendance shall be measured for each virtual course by approved participation requirements as defined by Chapter 41 Virtual Education.

Section 10. Mathematical Calculation of Average Daily Membership (ADM).

(a) Each school shall meet both the 175-day pupil-teacher contact requirement (or, if less, the number of days required by an alternative schedule approved by the State Board) and the minimum applicable number of hours established by the State Board in Chapter 22 of its rules and regulations.

(b) The mathematical calculations on the WISE Attendance & Membership Report for purposes of computing the ADM for each school district, is derived by dividing the school's aggregate membership, including hospitalized or homebound students, for the period of time under aggregation by the actual number of days over which the aggregation occurred. The resulting calculation shall not exceed one (1) ADM. Student data used to report membership statistics shall be provided by each school's student information system. ADM calculations shall be carried out and rounded off to three (3) decimal places for the WISE Attendance & Membership Report and the Foundation Program Funding Worksheet.

(c) All Wyoming schools shall not include in their membership those students for whom the school district is no longer actively or prospectively providing appropriate instructional services. Examples include, but are not limited to, situations relative to students who:

- (i) Withdraw from school;
- (ii) Are absent more than ten (10) consecutive school calendar days;
- (iii) Are full-time virtual education students not meeting participation requirements for more than ten (10) consecutive program days as defined by Chapter 41 Virtual Education;
- (iv) Do not attend a school in a Wyoming school district;
- (v) Transfer from one school to another within a district (the sending school shall cease to include the transferred student in its membership); or
- (vi) Move out of the area, or are otherwise no longer receiving appropriate district instructional services.

(d) A school district that receives a student from another school district shall immediately include that student in its membership. The school district that sends a student to another school district shall immediately cease including that student in its membership. No student shall be included in two schools' memberships at the same time, whether those schools are in the same district or in different districts.

(e) No reduction in aggregate membership shall occur when a student completes a virtual education course before the end of the term if the participation requirements have been completed. A weighted day calculation shall be used for the time the student was enrolled in the course. The weighting shall be calculated using the number of scheduled term days divided by the actual days it took the student to complete the course (e.g., a course term is 88 days and a student completed the course in 50 days. The 88 term days are divided by the 50 course days to equal a 1.76 weighted day equivalent for each of the 50 days in the course. The 50 days the student took to complete the course is multiplied by the weighted figure of 1.76 resulting in 88 course days). For each course, the number of days completed shall be divided by the regularly scheduled number of courses in the school to compute the aggregate membership (e.g., if a student completed 88 course days and the school offered 8 courses per day, the student's aggregate membership for the course would be 11.000).

(f) Virtual education student membership shall be prorated at less than full-time equivalent if the number of virtual education courses in which the student is enrolled are less than the regularly scheduled courses for that school, but the virtual education membership may be combined with any non-virtual education membership on a daily basis to result in a larger fractional membership for the day not to exceed one (1).

(g) Students in membership less than eighty percent (80%) of the school day shall be counted equal to their part-time membership using one (1) of the following methods and apply that one (1) method to all part-time students in a school:

(i) Calculate the ratio of periods in membership to the total periods normally offered at that school (e.g., a student in membership two (2) periods a day in a school that offers seven (7) periods per day would generate a $\frac{2}{7}$ aggregate membership, or 0.286 ADM for the number of days over which the aggregation occurred); or

(ii) Calculate the ratio of hours (or minutes) in membership to the total hours normally offered at that school (e.g., a student in membership two and one-half (2.5) hours a day in a school that offers eight (8) hours per day would be $\frac{2.5}{8}$ hours (or $\frac{150}{480}$ minutes) aggregate membership, or 0.320 ADM for the number of days over which the aggregation occurred).

(h) When school is dismissed for emergencies prior to the end of the school day, membership inclusion shall be allowed according to the following guidelines:

(i) Students in membership for a major fraction of a half school day (greater than 25 percent) shall be counted as one-half day in membership.

(ii) Students in membership for a major fraction of a school day (greater than 50 percent) shall be counted as one whole day in membership.

(iii) Kindergarten students in half-day sessions in membership a major fraction of their session or the equivalent amount of time shall be counted as if the entire session had been completed.

(i) Prior school year ADM shall be adjusted in the funding model in the following instances:

(i) A new school opens,

(ii) A district changes boundaries,

(iii) A school's grades served are reconfigured, or

(iv) A district moves specific programs from one school to another school, as well as the students in those programs.

(A) The district shall submit a list of schools and the number of students, by grade, which transferred to another school within the district due to one of the instances in subsection (h).

(B) The Department shall subtract the number of students that transferred to another school within the district from the two years of ADM they were already included.

(C) This provision does not apply to:

(I) Co-located schools that combine to create a single school and the combination of the schools does not cause a transfer of students to other schools within the district and the grades served are not adjusted (e.g., a co-located K-5 school and 6-8 school reconfigure to a single K-8 school. The K-8 school serves the same students as if it was the co-located K-5 and 6-8 schools. The prior years' K-5 school and 6-8 school ADM will be transferred to the combined school.) , or

(II) Two or more schools that combine to create a single school and the combination of the schools does not cause a transfer of students to other schools within the district and the grades served are not adjusted (e.g., a separate K-5 school, 6-8 school, and 9-12 school, combine to create a single K-12 school. The single K-12 school serves the same students as if the separate schools still existed. The prior years' K-5 school, 6-8 school, and 9-12 school ADM will be transferred to the combined school.)

Section 11. Corrections to the Funding Model.

(a) The Department shall make any necessary changes to the funding model according to the following processes:

(i) Technical corrections shall be implemented in the following manner:

(A) Evaluate suggested correction in consultation with school finance advisers and state agencies as necessary. If suggested correction is deemed necessary, then proceed with the following steps:

(I) Notify Department staff, Legislative Service Office, and outside school finance consultants;

(II) Document the correction on a Department technical correction form;

(III) Send corrected education resource block grant model to outside school finance consultants for review;

(IV) Request letter from outside school finance consultants certifying that the technical corrections made by the Department are in compliance with Wyoming law;

(V) Inform the School Finance Data Advisory Committee of the correction;

(VI) Notify all school districts in a memo format; and

(VII) Forward revised education resource block grant model to Secretary of State's office along with certification letter.

(ii) Data Corrections shall be implemented in the following manner:

(A) Evaluate suggested correction in consultation with Department staff. If suggested correction is deemed necessary, then proceed with the following steps:

(I) Notify Department staff, Legislative Service Office, and school finance advisers;

(II) Document the correction on a Department data correction form; and

(III) If data correction is made after the WDE-100 is released or while the statewide payment model is being created, notify district(s) affected.

(ii) Format changes shall be implemented in the following manner:

(A) Notify Department staff;

(B) Document the change on a Department format change form; and

(C) Print off a before and after worksheet to illustrate change(s) and attach to format change form.

Section 12. Funding Model Operations and Maintenance.

(a) The Department shall annually update necessary operations and maintenance data components in the funding model with the following data supplied by the Wyoming School Facilities Commission (SFC):

(i) District sites and their associated site identification number, actual site acreage, and acquired date.

(ii) District school building information, including:

(A) Actual gross square footage;

(B) Actual educational gross square footage;

(C) SFC allowable gross square footage;

(D) The year built; and

(E) The number of classrooms.

(b) The funding model generates groundskeeper FTE resources for district sites acquired after July 1, 1997, based on the following:

(i) The site acreage that groundskeepers will be resourced upon shall be the lesser of the actual site acreage or the following SFC guidelines:

(A) Elementary school sites will be allowed a maximum acreage amount of four (4) acres, plus one (1) acre for every one-hundred (100) ADM.

(B) Middle school sites will be allowed a maximum acreage amount of ten (10) acres, plus one (1) acre for every one-hundred (100) ADM.

(C) High school sites will be allowed a maximum acreage amount of twenty (20) acres, plus one (1) acre for every one-hundred (100) ADM.

(ii) If a site contains more than one (1) school, the site will be allowed a maximum acreage amount equal to the highest level of the opened schools on the site, but count all the schools' ADM (e.g., if a site has a middle school and a high school on the same site, the site will be allowed twenty (20) acres, plus one (1) acre for every one-hundred (100) combined middle school and high school ADM). The site shall be resourced upon the lesser of the allowed acreage amount or actual site acreage.

(iii) If a site was acquired through an exchange of land with another government entity and the acreages involved in the exchange were originally acquired by the district and the government entity on or before July 1, 1997, the site will generate groundskeepers for the actual site acreage. The district shall provide the following documentation to the Department:

(A) The dates the district and the government originally acquired the acreages involved in the exchange; and

(B) The completed contract between the district and the government entity to acquire the acreages that identifies the date the exchange occurred.

(iv) Any other district site acquired after July 1, 1997, with a facility other than an elementary school, middle/junior high school, or high school located on it, will be resourced groundskeepers for the site's actual site acreage.

(v) If a district has a parcel of land with a school under construction or without a facility located on it, the funding model will not generate groundskeeper FTE resources for the acreage.

(c) The funding model will generate groundskeeper FTE resources for all district sites acquired on or before July 1, 1997 and shall use the actual site acreage in the calculation that generates groundkeeper FTE resources.

(d) If a district's site acquisition date is different than when the district obtained the title or deed to the site, the district shall provide documentation identifying the exact date when the district acquired the site.

Section 13. Reimbursable Expenditures. In general, School Foundation Program reimbursement for school district expenditures incurred in a prior year shall be limited to those incremental costs relative to particular areas specified by law and for which funding is not already directly provided in the education resource block grant model. No reimbursement shall be provided for costs previously or simultaneously recovered elsewhere in the Wyoming school finance system.

Section 14. Student Transportation Reimbursement.

(a) Chapter 20, Rules for Cost-Based Block Grant Model Transportation Component, of the Department rules is hereby incorporated into these rules as applicable. In addition, the following applies to student transportation reimbursement under W.S. 21-13-320:

(b) Pro rata reimbursement for personnel not devoting one-hundred percent (100%) of their time to student transportation issues and operations shall be supported by clear and continuous documentation.

(c) Personnel dealing with pupil transportation issues and operations full-time shall be subject to one-hundred percent (100%) reimbursement provided that an appropriate position description exists and an affidavit specific to the year for which reimbursement is expected, signed by the employee and the district superintendent, or district superintendent designee, attesting to such full-time involvement, is on file at the district office. Such affidavits shall be renewed annually and shall clearly reference the school year for which reimbursement is claimed.

(d) Reimbursement for bus and loading-zone aides shall be limited to those individuals otherwise qualified under Sections 14(a) or 14(b) above.

(e) No reimbursement for student transportation facility major maintenance shall be allowed under this Section.

Section 15. Special Education Reimbursement.

(a) Chapter 7, Special Education Rules Governing Services for Children with Disabilities, of the Department rules is hereby incorporated into these rules only as applicable. Chapter 7 rules remain in force and continue to apply to all areas of Special Education not specifically addressed in Chapter 8. In addition, the following applies to special education reimbursement under W.S. 21-13-321:

(b) Reimbursement for expenditures incurred to provide special education programs and services to children with disabilities shall not duplicate any other reimbursement or revenue source used to offset district special education costs. For example, any amount received by a district from the special school district tax levied under W.S. 21-20-109 for Boards of Cooperative Educational Services (BOCES) providing services to children with disabilities, but not passed through to the BOCES for which the tax was levied, shall be considered by the Department to be a state revenue under W.S. 21-13-310(a).

(c) Special education reimbursement shall be limited to those actual costs required to provide special education programs and services to children with disabilities. Imputed and/or indirect costs, such as those for utilities and other overhead, shall not be claimed.

(d) Salaries and employee benefits for personal services paid to certified and/or licensed teachers, substitute teachers, and other certified and/or licensed personnel, or to paraprofessionals and classified employees, are subject to the following requirements:

(i) Personnel providing full-time special education programs and services to children with disabilities shall be subject to one-hundred percent (100%) reimbursement provided that an appropriate position description exists and an affidavit specific to the year for which reimbursement is expected, signed by the employee and the district superintendent, or district superintendent designee, attesting to such full-time involvement, is on file at the district office. Such affidavits shall be renewed annually and shall clearly reference the school year for which reimbursement is claimed.

(ii) Pro rata reimbursement for personnel not devoting one-hundred percent (100%) of their time providing special education programs and services to children with disabilities shall be supported by clear and continuous documentation.

(iii) Reimbursement for personnel costs of teachers providing special education programs and services to children with disabilities shall be limited to those individuals having appropriate special education certification. Substitute teachers need not be certified as special education instructors.

(iv) Reimbursement for personnel costs of aides and other paraprofessionals shall be based on the amount of time devoted to special education and/or related services, working under the supervision of certified special education personnel.

(e) Instructional materials, supplies and equipment, and other items will be reimbursed in the amount necessary to provide beneficial services for children with disabilities, as determined by their IEP team. Reimbursement would also include those items necessary to evaluate a child to determine the need for special education services as well as those day-to-day supplies, materials, and equipment utilized by special education staff and programs. However, supplies, equipment, and materials generally available to all students shall not be reimbursed under this section.

(f) Contracts for special education services shall be executed on Department approved forms, and the following requirements shall apply to such contracts:

(i) Charges for contracted special education programs and services related to individual children shall be supported by an itemized billing statement showing each child served during each billing period. Reimbursement shall not exceed actual costs for services.

(ii) With the exception of those payments to BOCES or other Wyoming school districts that have been pre-approved by local boards of trustees, payment for services shall be made only after the services have been provided.

(iii) School districts offering special education programs and services through a case-management arrangement utilizing individuals other than district staff shall develop a personal-services contract setting out and describing those case-management services provided by the case manager.

(iv) Each contract for out-of-district or out-of-state placement shall be written for only one child.

(v) Contracted services shall only be provided by appropriately certified, licensed, or registered providers.

(vi) All providers shall adhere to all Department and State Board rules and regulations.

(vii) All contracts for services shall be subject to review by the Department.

(g) Each local district shall develop, implement, and enforce a reasonable policy setting forth the conditions, limitations, and allowable frequency of travel by parents to visit their child with disabilities when the child has been placed in a specialized setting away from their home in accordance with the child's IEP.

Section 16. Cash Reserves.

(a) A school district's "operating balance and cash reserves," as that term is used in W.S. 21-13-313(e), includes all district general fund financial resources computed in accordance with Generally Accepted Accounting Principles as of the end of the fiscal year which are not legally obligated or otherwise restricted by law or regulation for expenditure on specific educational programs or facilities. Thus, a school district's Committed, Assigned and Unassigned end-of-year general-fund fund balance as reported in the district's audited financial statements will normally be considered to be its operating balance and cash reserves for that year.

(b) A school district shall not transfer funds or accumulated reserves from its general fund to another fund for purposes of avoiding inclusion of such amounts as state revenues under W.S. 21-13-310(a). Any amount so transferred shall be considered by the Department to be state revenue under W.S. 21-13-310(a).

(c) District's revenues received from settlements of prior protested twenty-five (25) and six (6) mill tax payments may be excluded from the cash reserve calculation for the fiscal year in which the payments were received per W.S. 21-13-313(e).

(d) A district wishing to exclude a tax settlement from the cash reserves calculations shall submit a letter to the Director of Finance requesting exclusion, thirty (30) days after the end of the previous fiscal year in which the protest payment was received.

(e) The letter shall include a certification from the county treasurer on the amount of the tax settlement receipt.

Section 17. At-Risk Data Used for the Funding Model. The data constituting a district's at-risk count shall be the unduplicated count of ELL students, FRL students and mobile students.

Section 18. Internal Consistency of Reports and Mathematical Integrity. The individual reports making up the Foundation Program Report shall be operationally and mathematically consistent. The Annual District Report shall serve as the hub and master repository of district financial data. As such, the other reports making up the Foundation Program Report shall, where applicable, achieve reconciliation with the Annual District Report. Each school district superintendent shall review the individual reports making up the Foundation Program Report for his or her district as appropriate and necessary before they are forwarded to the Department and, based upon his or her review, certify that, to the best of his or her

knowledge and belief, the Foundation Program Report and its subparts are complete, accurate, and in conformity with all reporting requirements.

Section 19. Retention of Foundation Program Reports. The foundation program reports for each district, along with all supporting data, shall be maintained in accordance with the retention schedule for school districts on file with the Wyoming State Archives office.
